JL.ANGGREK NELI MURNI, BLOK.A NO.13 KEMANGGISAN

I'm a software engineering student at CCIT FTUI who enjoys building practical and scalable solutions. I work primarily with JavaScript, Python, Java, Node.js, and Express. My approach is hands-on. I like exploring different tools and methods to see what fits best. Along the way, I've built leadership and teamwork skills through academic projects and organizational experience.

Organisational Experience

EDS UI - Depok

Aug 2023 - Aug 2024

Member

The English Debating Society Universitas Indonesia (EDS UI) is one of the most prestigious student organizations at Universitas Indonesia, dedicated to fostering critical thinking, public speaking, and competitive English debating skills.

GDGoC UI - Depok

Sep 2023 - Present

Member

The Google Developer Student Clubs on Campus Universitas Indonesia (GDGoC UI) is a vibrant student-led community at Universitas Indonesia, dedicated to fostering interest and proficiency in technology among students from diverse academic backgrounds. As part of the global Google Developer Groups (GDG) network, GDGoC UI provides a platform for students to explore, learn, and collaborate on various technological domains.

- As a member of GDGoC UI, I actively explore different tech domains through workshops and events, choose a focus area like mobile dev or AI.

Komandro - Depok

Oct 2024 - Present

Member

Komandro CCIT-FTUI is a student tech community under CCIT-FTUI (Faculty of Engineering, Universitas Indonesia) that focuses on mobile and web development, UI/UX design, and technology exploration. The community provides a platform for students to collaborate, learn through workshops and competitions like KomByte, contribute to open-source projects, and engage with the tech industry through events and company visits.

- Currently learning Android Development, Web Development, and DevOps to broaden my understanding of modern software development practices and tools across platforms.

UKM Wushu UI - Depok

Oct 2024 - Present

Member

UKM Wushu Universitas Indonesia is a student organization established in 2008 and officially recognized in 2009, dedicated to the practice and promotion of wushu martial arts. The club focuses on developing members' skills in both the combat and artistic aspects of wushu, offering regular training sessions and opportunities to participate in competitions and performances.

- Practicing Sanda (Chinese kickboxing) to develop discipline, physical conditioning, and strategic thinking through regular training and sparring. Focused on improving technique, adaptability, and mental resilience in both individual and team settings.
